

Marco Acciai – CV

Dr. Marco Acciai is a Project Manager at Agrigeos srl since 2021. He coordinates and leads the Agrigeos Team dedicated to plant biostimulants and fertilisers trial services. He promotes new business opportunities and participates to project writing focused on developing sustainable agricultural solutions. Dr. Acciai is the scientific coordinator of SPIDAP project (NRRP NODES Innovation Ecosystem www.ecs-nodes.eu/en/node/945) that aims at defining an innovative Decision Support System (DSS) based on advanced sensors to increase irrigation water use efficiency of citrus farming. He holds a PhD in Agricultural Science from the University of Bologna, completed in 2020. His research activity was focused on developing sustainable agricultural practices aimed at introducing two promising oilseed crops for the EU bioeconomy in the context of marginal land exploitation. The study was funded by the European MAGIC project (magic.h2020.eu).
