

Jacopo Bindi is currently a research fellow at the Department of Cultures, Politics and Society of the University of Turin. His research interests focus on the social sustainability of the energy transition. He graduated in Physics (2013) at the University of Torino (Italy). He holds a Ph.D. degree in Physics (2017) at Politecnico di Torino. His thesis focused on a Belief Propagation approach to epidemics prediction on networks. His current research focuses on developing methods and indicators for evaluating the social impact of green hydrogen and social life cycle assessment.
