

Benedetta BRUGNOLI – CV

Benedetta Brugnoli is a Post doctoral researcher in Laboratorio di Materiali Polimerici (LAMP) group at Sapienza University of Rome. Her research interest is focused on the synthesis and characterisation of antimicrobial polymers and the preparation of polymeric nanosystems for active pharmaceutical ingredients (APIs) release. She obtained a PhD in Chemical Sciences at Sapienza University of Rome in April 2024 by defending a thesis entitled “Nanostructured materials for sensing and drug delivery applications” under the supervision of Prof. Iolanda Francolini.
