

Giuseppe COLLA - CV

Prof. Giuseppe Colla is a full professor in horticulture at University of Tuscia Viterbo (Italy) and he is currently working on plant biostimulants with the aim to identify bioactive compounds and to understand their mode of action. He is also working on the interaction among plant biostimulants, growing conditions and crop species. He published about 300 articles in peer-reviewed journals, and two books and four special issues on plant biostimulants. He is involved as Project Leader of sub-group 'Plant biostimulants – Claims – Tolerance to abiotic stress' for preparation of technical Specification and European Standard in support of Regulation (EU) 2019/1009.
