

## **Giuseppina LUCIANI - CV**

Prof. Giuseppina Luciani is an Associate Professor of Chemical Fundamentals of Technologies at the University of Naples Federico II since 2015. He holds a Ph.D. in Materials Engineering (2001) and a Bachelor's Degree in Chemical Engineering with honors (1996) from the same university. Her career highlights include serving as the National Delegate for Action Cost MP1206 on Electrospun Nano-fibres for bio-inspired composite materials and innovative industrial applications (2013-2017). He has also been involved in editorial roles, contributing significantly as a peer reviewer for prestigious international journals. She is a member of several esteemed scientific societies, including the European Society for Biomaterials and the Italian Chemical Society. His research focuses on the design, synthesis, and characterization of nanostructured materials for energy, environmental, and biomedical applications. He has led competitive research projects and received awards for his contributions to biomimetic engineering and materials science.
