

Roberto PETRUCCI - CV

Roberto Petrucci obtained the degree in Materials Engineering (2002) and the PhD in Industrial Engineering (2005) at the University of Perugia. As post-doc researcher at UNIPG, worked in the development, characterization and processing of polymers, composites and nanocomposites, as well as in the LCA of products and processes. He worked four years also at the European Centre for Nanostructured Polymers. He is currently in charge as a RTD-A at the University of Perugia.
